WORK EXPERIENCE

WACO SERVICES — *2022 - 2024*
Front-end Developer with ReactJs

- Adherence to best development practices taught by Waco.
- Implemented a design system from Figma using JavaScript, HTML5, CSS3, and ReactJS.
- Developed screen layouts, Footers, Headers, Layouts, and charts in ReactJS.
- Consumed Endpoints from a RESTful API using a ReactJS application.
- Experience in manipulating and structuring data using JSON, including creating, validating, and analyzing JSON objects in various environments.
- Conducted software unit testing using Vitest and Jest.
- Documented all implemented source code.
- Managed source code in GitHub, GitLab, Azure DevOps, and/or Bitbucket using GIT commands.
- Ensured proper version control of source code following the GitFlow workflow.
- Configured and optimized projects with Babel and Webpack, including code transpilation and the creation of efficient production-ready bundles.
- Participated in project ceremonies such as Dailies, Sprint Reviews, and Sprint Retrospectives.
- Strictly followed the software department's internal procedures throughout project participation.
- Ensured the completion of tasks assigned by the project manager and the project's Technical Lead.
